

TECHNICAL REPORT:
Purity and Potency Assessment of Semaglutidum
Manufacturer: Signum
Dosage: 5mg/ml

INTRODUCTION

This document outlines the analytical procedures and results for the Semaglutidum batch, emphasizing purity evaluation and concentration accuracy. The study aims to ensure product safety and efficacy.

METHODOLOGY

Concentration encountered (IU)	4.91 mg/ml
Purity (%)	98.2

DISCUSSION

CONCLUSION

The analysis confirms high purity and accurate concentration. Impurity levels are negligible, indicating robust manufacturing processes. The batch is approved for distribution.

A handwritten signature in black ink, appearing to read 'E. Rossi', is positioned in the upper right corner of the page. The signature is fluid and cursive, with a small dot at the end of the last letter.

Dr. Elena Rossi
