

TECHNICAL REPORT:
Analysis of Methandienone 10 Tablets
Manufacturer: Aquila
Dosage: 10mg/tab

INTRODUCTION

This comprehensive study evaluates Methandienone 10 tablets, focusing on anabolic steroid content accuracy and purity for performance enhancement applications. Ensuring product quality is vital for consistent results and user safety.

METHODOLOGY

Concentration encountered (IU)	8.64 mg/tab
Purity (%)	86.4

DISCUSSION

CONCLUSION

The product shows acceptable purity levels with moderate impurities. Concentration is within the specified range though slightly below target. The batch is approved with recommendations for process optimization to enhance purity and consistency.
