

TECHNICAL REPORT:
Sunflower Oil Serum Quality Report
Manufacturer: Topical barrier
Dosage: 50 mg/ml

INTRODUCTION

Comprehensive quality control analysis of Sunflower oil serum product examining topical formulation characteristics, ingredient purity, and concentration accuracy for cosmetic safety and efficacy verification.

METHODOLOGY

Concentration encountered (IU)	45.6 mg/ml
Purity (%)	91.2

DISCUSSION

CONCLUSION

The topical product demonstrates excellent quality standards with high purity levels and accurate ingredient concentration. All parameters meet cosmetic industry requirements for safe and effective consumer application.
