

TECHNICAL REPORT:

Quality Assessment of Trenb Acet Injection

Manufacturer: Hilma biocare

Dosage: 100mg/ml

INTRODUCTION

This report provides a detailed analysis of Trenb Acet injection containing Trenbolone Acetate, focusing on purity, impurity profile, and concentration accuracy for anabolic applications.

METHODOLOGY

Concentration encountered (IU)	84.60 mg/ml
Purity (%)	84.6

DISCUSSION

CONCLUSION

The product demonstrates acceptable purity levels with moderate impurities. Concentration is within the specified range though slightly below target. The batch is approved with recommendations for process optimization to enhance purity.
