

TECHNICAL REPORT:

Quality Assessment of Diana Tablets

Manufacturer: Black series

Dosage: 10mg/tab

INTRODUCTION

This report analyzes Diana tablets for their active ingredient content and impurity profile. The study ensures product reliability for its intended hormonal applications.

METHODOLOGY

Concentration encountered (IU)	5.78 mg/tab
Purity (%)	57.8

DISCUSSION

CONCLUSION

Purity is below acceptable standards, leading to high impurities. Concentration is also low. The batch should be rejected or extensively reprocessed.
