

TECHNICAL REPORT:
Primobolan 100mg Enantate Analysis
Manufacturer: Euro steroids
Dosage: 100mg

INTRODUCTION

Detailed analytical evaluation of Primobolan product focusing on metenolone enantate composition, purity verification, and manufacturing consistency to ensure therapeutic efficacy and user safety in applications.

METHODOLOGY

Concentration encountered (IU)	88.2 mg
Purity (%)	88.2

DISCUSSION

CONCLUSION

The product demonstrates consistent quality with acceptable purity levels and accurate concentration. All parameters meet quality standards for reliable therapeutic use in appropriate applications with verification procedures.
